Experience

Not all repositories are available below. Check the GitHub for more information. Also, not all projects have a demo.

MEDICORE | PERSONAL PROJECT | FEB OF 2025 ~ ON GOING REPO

- A full-stack health test and fitness application developed for personal use to store all my health data in one place.

Tech Stack: Java Spring Boot, Thymeleaf, Bootstrap 5, PostgreSQL

SENTINEL OF LIBERTY | PERSONAL PROJECT | DEC OF 2024 ~ MAY OF 2025 REPO

- A new version of the Sentinel of Liberty is now built with more robust and modern technology than its previous version.

Tech Stack: Java Spring Boot, PostgreSQL, WebSocket | JUnit, Mockito | Next.js, Auth.js, Tailwind CSS

MEDIMANAGE | OPEN-SOURCE | JUL OF 2024 ~ JAN OF 2025 REPO

- A full-stack application designed to streamline the management of small clinics. It handles patient records, schedules appointments, and performs some administrative tasks.

Tech Stack: Java Spring Boot, PostgreSQL, Spring WebFlux | Next.js, Auth.js, Tailwind CSS

TASKR | OPEN-SOURCE | MAR OF 2024 ~ AUG OF 2025 REPO

- A task management application designed to help you organize, prioritize, and manage your projects seamlessly.

Tech Stack: Java Spring Boot, PostgreSQL, WebSocket | JUnit, Mockito | Next.js, Auth.js, Tailwind CSS

TASKR MINI | OPEN-SOURCE | OCT ~ SEP OF 2024 REPO / DEMO

- A simple, lightweight, and user-friendly to-do list application that runs entirely in your browser using IndexedDB.

Tech Stack: HTML, CSS, Vite.js, Typescript, IndexedDB

SABIÁ | PERSONAL PROJECT | MAY ~ SEP OF 2024 REPO / DEMO

- A full stack microblogging social network based on X (former Twitter), where users can post, like, and comment on posts.

Tech Stack: Java Spring Boot, PostgreSQL | Next.js, Tailwind CSS

SENTINEL OF LIBERTY | PERSONAL PROJECT | NOV OF 2023 ~ FEB OF 2024 FRONTEND / BACKEND

- An online platform where people can suggest/share news from around the globe, and users can write articles based on them, offering their point of view on said suggestions.

Tech Stack: Node.js, TypeScript, Express with TypeORM

BIRDY (SOCIAL NETWORK) | PERSONAL PROJECT | AUG ~ NOV OF 2023 REPO / DEMO

- An Instagram-like full-stack social network for bird enthusiasts to share and explore various bird species through their photographs.

Tech Stack: Vite.js, React, Redux, Tailwind CSS | Node.js, TypeScript, Express with TypeORM

UTILITIES WEB APP| OPEN-SOURCE | JUL ~ NOV OF 2023 REPO / DEMO

- A SPA built from scratch using vanilla JavaScript. It offers a range of conversion tools, calculators, and other utilities, including password generators, a character counter, etc.

Tech Stack: HTML, CSS, JavaScript, Math.js library

VITE.JS TEMPLATE | OPEN-SOURCE | JUN OF 2023 ~ ONGOING REPOSITORY

- This is an open-source Vite.js template initially built for personal use. I created it to initiate a new modern project using Vanilla JavaScript. It is part of the official Vite.js template list.

Dependencies: ESLint, Prettier, PostCSS + Nesting, Autoprefixer, CSS Nano, CSS Reset

VR CONDOMINIUM MANAGEMENT | INTERNSHIP | DEC OF 2016 ~ DEC OF 2017

- Provided support to the HR and Personnel departments, handled document filing, assisted with internal systems operations, and delivered customer service and phone support.
